

creating environments where  
**PEOPLE THRIVE!™**

# MOSS walls

# the latest TREND in GREEN design

**A**s urbanites get more and more isolated from the natural world, their desire to maintain some sort of connection has inspired creative new interior design ideas.

When Biophilic principles are incorporated into our urban environments as a fundamental consideration of design—we begin to realize the powerful role our atmospheres play in our lives.

The WORKPLACE is increasingly becoming a proving ground for nature-inspired design elements that bridge the gap to fulfill our innate biophilic desire to **reconnect the spaces** we live, work & play.

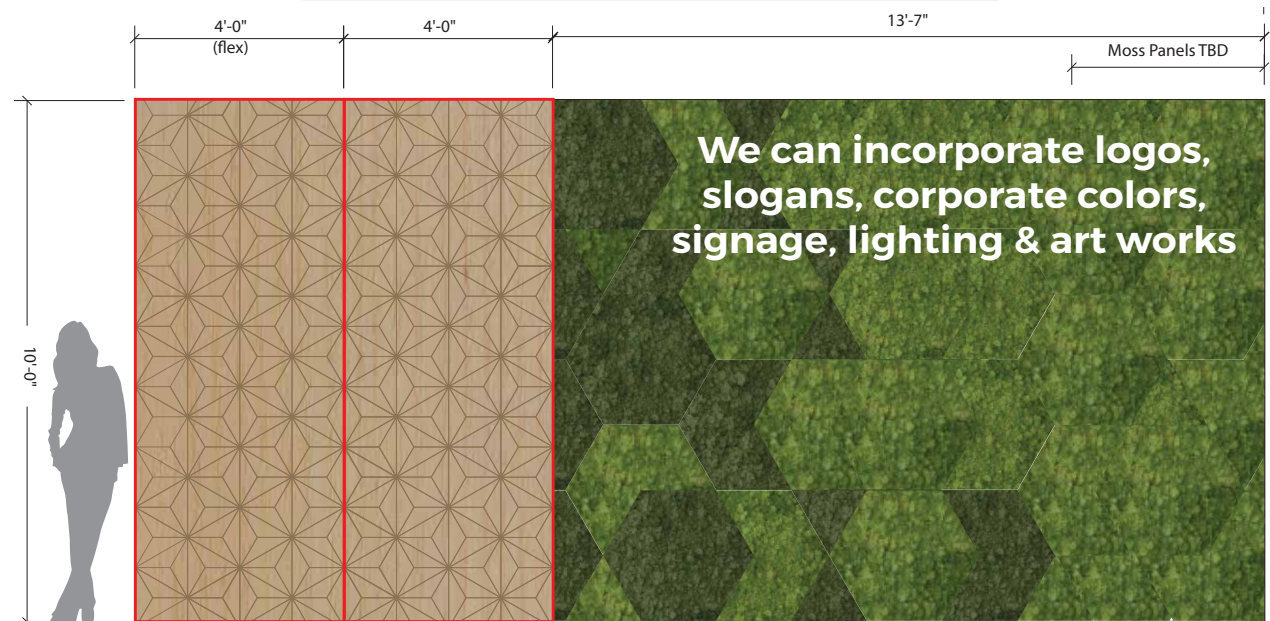

Moss walls are an IMPACTFUL  
& COST-EFFECTIVE approach  
to

# ENHANCE the NATURE of your WORKPLACE

# natural DESIGN authentic

Custom designs, colors & sizes for any application

## ART INSPIRED BY NATURE

Ease of maintenance of our moss walls make for a much more affordable solution to traditional green living walls

scalable

MODULAR

functional

modular & seamless panels

# features BENEFITS advantages

## **MOSS WALLS require little on-going attention reducing service maintenance costs.**

Unlike live plants that must have suitable environmental conditions and regular care by a professional horticulturist—these works of art will retain their natural appearance and color year over year.

**PRESERVED MOSS** installations can be placed just about anywhere—from the main focal point of your lobby to the restrooms and even the ceiling!

### **Natural & Authentic**

Only 100% natural and authentic Reindeer, Mood & lichen Moss used.

### **Acoustic Sound Absorber**

Absorbing up to twice as much as the industry average for products of same size and thickness.

### **Environmentally Friendly**

Our moss is hand-picked with care for nature, certified & approved by ISO 9001 and ISO 14001 standards.

### **Fire-Resistant**

Our natural preserved moss is cleaned & stabilized for flame retardance certified by ISO 11925-2 for interior use.

### **Air Purifying**

Through a constant cycle of absorption and release of ambient moisture, air particles are removed.

### **Natural Humidity Indicator**

Reindeer Moss dries when the relative humidity falls below 40%, and returns soft again above 40%.

### **Hypoallergenic**

Our products do not contain toxic chemicals or components.

### **Maintenance-Free**

Preserved Moss does not require any sunlight, watering or pruning.

# MOSS WALLS

workplace design with the human in mind
